## Notes

On 1/22/22 we were able to get our domain changed from [PCommsHQ.gsc-cloud.com](https://PCommsHQ.gsc-cloud.com) -> [primeconnect.gsc-cloud.com](https://primeconnect.gsc-cloud.com) .  
A the time of the change, both domains worked but I suspect the original will cease to function at some point.
